

# Website Design

## Web site design

Newsquest Oxfordshire & Wiltshire have a complete web site design service and can create a small one page web site through to a complex database site.

Why don't you discuss your ideas with us and we will then quote you on the level of web site design that you require.

## Our web site design packages start from:

Basic html one page web site - £200

An entry level bespoke designed web site consisting of a home page and contact form and domain name registration.

## Four page basic web site - £550

Four pages, bespoke designed web site in html, includes a contact form and four additional pages for you to design. We will also include a domain name, one years hosting and one month's banner advertising campaign on one of our web sites.

(Maximum page impressions of 10,000)

## Self editable database web sites - start from £750

We will create a web site that will allow you to edit the text and images on your web site as often as you like. The web site can be built to adapt all of your requirements, from basic text changes to a fully functional ecommerce web site. Making amendments to your web site can be learnt in minutes and can happen at any time via any internet browser.

## Customised programming

HTML home page - £150

Additional HTML pages - £100

ASP programming (database sites) - £350 per day/£70 per hour

Flash animation - £350 per day/£70 per hour

Custom programming rates do not include domain name registration, hosting or other services.

The prices shown above are for guidance purposes only and exclusive of VAT.

\*All prices shown are subject to VAT.
